Create your own story quilt at home!

Throughout history, quilts were created to document important events in people's lives and tell a variety of stories. We want to know something that made you smile during quarantine through creating your own story quilt.

**Materials**
- Blank piece of paper
- Scrap pieces of paper or fabric
- Colored pencils, crayons, markers, paint
- Scissors
- Glue

**Step 1**
Think of something that made you smile during quarantine and then write it down on a scrap piece of paper.

**Step 2**
Draw your idea in the middle of a blank piece of paper.

**Step 3**
Take your scrap pieces of paper or fabric and cut them into squares or whatever shape you want them to be.

**Step 4**
Glue the pieces down around the edge of your paper and drawing to create a border.

**Step 5**
When the glue dries, write down your story in a sentence or two.

**Step 6**
Take a picture and share on our page what you created. Use the hashtag #EiteljorgAtHome and #MuseumAtHome.
